DECLARATION OF Andrea Jackson

Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

I, Andrea Jackson, make the following statements based upon my own personal knowledge and experience.

- (1) I have received a B.A. Degree in Visual Communication from Truman State University in Kirksville, MO on 5/10/2006
- (2) I am currently employed by Paramount Homes, ZMA, Inc. and AdBook LLC and related companies associated with Bruce A. Fogelson, and have been so employed since 2008. I am a part-time employee.
- (3) I have career experience in Web Development, Web and Graphic Design, Photography, and Project Management.
- (4) I am not a professional in the area of social networking but am involved in and have partaken in social networking. One example is Facebook.com of which I am a member and understand the "user" connection to other "users" in a relevant manner. Sites similar to this (My Space and Twitter)

carry a social networking structure as well. Not only are you an individual who can simply be "friends" with other individuals, you can become a member of a group, friends with a group, start a group that is friends with other groups, etc. Thus linking all of the individuals, groups, group's members, etc. together whether directly or indirectly and increasing your social network.

- (5) In regards to the social networking aspect that "AdBook" entails it is described below and specifics include Exhibit A, B, and C for reference. As "AdBooks" are produced by non-profit organizations, the goal of an "AdBook" is that of a fundraiser. Fundraisers are typically targeted toward specific people related to the members of the group. This consists of the individuals, groups/subgroups, friend, family, co-worker, member, sponsor/supporter/sympathizer, vendor and/or advertiser for commercial purposes. From this we have developed a social Networking diagram listed as Exhibit A and the foundation for it as Exhibit C.
- (6) In addition to the social network diagram and ideology the need to link all donors, friends/family, etc into an organized format online is addressed in the AdBook Administrator. The need for this connection and compilation of all donors is necessary for the storage and production of the "AdBook" per the payment information and the personal data. The AdBook chairman will have the ability to add, edit, delete, and reorganize the ads received then submit the sum to print. The AdBook Administrator must also be able to compile all of the donor information into our online tool in order to aid in "AdBook" fundraising during the coming years. The chairperson of the specific group may then be able to track where the donors are coming from and thus target lesser groups the future. The donor information must be safely stored in the AdBook Administrators page both for the current donation and for future correspondence regarding continued donations, future donations, group updates/newsletter, receipts, confirmation emails, etc.

(7) Until AdBookOnline.com the method for creating and producing "AdBooks" has been completely manual, long and tedious. The AdBook Administrator cuts the cost, time, and work that go into the fundraising tool termed "AdBook". Everything from the initial form, storage, credit card processing, etc. would be managed in the AdBook Administrator making it as simple as possible for the AdBook chairman to create an "AdBook" from start to finish. AdBookOnline.com is, in simple terms, "connecting the dots" between the donor and group. From the initial filling out of the form via social networking to the completed and printed "AdBook", AdBookOnline.com is a method developed to make this fundraising tool a lot easier for participating groups. (See Exhibit D for home page of AdBookOnline.com)

I hereby make this DECLARATON as an individual with my own personal knowledge and opinion, and not8 on behalf of any group, employer or organization. With this DECLARATION I do not endorse any product or service.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
